

SCV LEAKS

with the **GROVE CONVERSION**

**ISO Conversion • Breakaway Feature
Couplers Connect Under Residual Pressure**

Is this *YOUR* tractor?

Seal your leaking hydraulic coupler for the last time.

Convert to ISO with easy one hand push-pull connection.

No more hydraulic oil mess at the back of your tractor.

Couplers that connect under pressure and have breakaway feature kits available for 10, 20, 30, and 40 series John Deere* tractors manufactured from 1961 - 1982. **Kit includes 2 inserts, 2 couplers, with dustcaps, and 2 expansion plugs.**

Inserts are MADE IN THE USA with patent pending design.

*Wapsi Innovations LLC is no way affiliated with John Deere

It *COULD* look like this!
